**ATTACHED SHEET FOR PRE-APPEAL BRIEF REQUEST FOR REVIEW**

The structural limitations of the Jepson preambles of the appealed claims to a method and apparatus of a fire extinguishing spraying apparatus are considered "... merely a name of the spraying apparatus" in the Action of September 11, 2007, and, therefore, are not given the patentable weight to which they are entitled for the reasons of record since July 13, 2007, and now repeated in the Response of even date, which record is incorporated herein in preference to repetition.

Respectfully submitted,
